DEPARTMENT OF EDUCATION OF PORTO RICO
Office of the Commissioner
San Juan

Circular Letter No. 25.
October 18, 1915.

To Supervising Principals -

I have the honor to inform you that this office has decided that in the future, absences of teachers -to a maximum of 15 days in the school year- recommended "Yes" by you shall not be deducted from said teachers salary. Those recommend "No" will be deducted and will not be repaid at any time, unless from a further investigation you are convinced that your recommendation should be changed. If you are in doubt as to the cause of the absence of any teacher you can require that a medical certificate be furnished you or you can request this office to take that special teacher from the payroll until further advise from you, but in no case hold your absence report for the balance of your teachers if you lack the weekly report from two or three teachers only.

I trust you will see the necessity of assuring yourself in every case possible, of the cause of the absence before making your final recommendation.

Please advise all your teachers of this change and that if they have any claims to make they should be addressed to you and not to this Department.

Yours very truly,

(Signed) P. G. Miller
Commissioner
